ILLINOIS HEALTH INFORMATION EXCHANGE

ILHIE Direct Secure Messaging Solution
Improve Patient Care, Save Time and Lower Costs

Some Benefits of ILHIE Direct:

Improve Patient Care
- Exchange clinical care summaries, medical records etc. before patient arrives for service
- Coordinate care plans amongst patient care teams
- More quality time to spent with patients
- Fewer forms for patients to fill out
- Collecting medical information is not dependant on a patient's memory of their care history
- Greater safety and security – HIPAA compliant (regular email is not)
- Communicate securely to any provider with or without an Electronic Health Record (EHR) system
- Attach files up to 30 MB, including images
- Send to multiple providers at one time

Save Time
- Sending faxes/re-faxing pages, maintaining fax logs
- By scanning documents, attaching and sending a Direct message
- By saving attachments directly into a patient's electronic record(s)
- No longer copying medical records
- Searching for paper medical records

Lower Costs
- On staff administrative time
- On fax machine maintenance and toner
- On paper
- On postage
- On messenger fees
- On paper medical record storage space

Out of Network Messaging

One of the most valuable services of ILHIE Direct is the ability to send secure messages to Out of Network exchange partners who do not have an ILHIE Direct address. All you need is ILHIE Direct and the Recipient's Email Address. Click here for more information.
